#### INTRODUCTION

**Tortech Engineered Sound Products** is a well established company name, offering a comprehensive line of top quality products. The company offers fast and economical access to sound products from our worldwide productions.

Our excellent manufacturing capabilities give us the leading edge. This permits us to help you solve your complex customer design needs. The company is small enough to give you personalized service, yet large enough to assure professional results.

Since our start up in the 1970's, we have built a satisfied customer base across Canada and the United States. We pride ourselves on being able to handle your specialized sound needs.

TORTECH has made its mark with the help of our loyal customers in so many installations that it is too numerous to list. We are constantly inspired by our customers to engineer new and innovative items. We always look for new engineering challenges and are constantly looking to improve the quality of all products.

#### **24 VOLT SELF AMPLIFIED SYSTEM**

#### **MX8 MIXER**

The Tortech MX8 mixer is designed to be used with the self amplified horns and speakers. It has automatic muting for music over ride and EMC emergency over ride circuit for evacuation tones.

| Product Specification | ns:   |
|-----------------------|---|
| Accessories           | Rack mount kit for standard 19" cabinet   |
| Controls              | Master volume, bass, treble,  |
| Inputs                | 3 balanced screw terminal microphone inputs, 3 auxiliary inputs, 600 Ohm telephone paging input |
| Power                 | 24 V power input  |
| Size                  | 3" height by 12" depth  |
| Weight                | 6 lbs   |

#### **AMPLIFIERS**

# PA60R / PA120R - with Am/Fm Tuner & Remote Control

#### **SPECIFICATIONS:**

- Power 60/120 Watts RMS
- Am/Fm Digital Tuner With Remote
- Two Microphone XLR/ Screw Inputs
- One Aux Input RCA
- Automatic Mute On Paging
- Telephone 600 Ohm

- Music On Hold
- 70 Volt 8 Ohm Speaker Line
- Line In / Out 600 Ohm 1 Volt
- Frequency Response 60-20khz
- Ra Vk Mount Kits
- Master Volume
- 4 Microphone / Line / Phantom, 1 Aux inputs
- 600 Ohms telephone input interface
- Bass and treble tone controls
- 50-15,000 Hz frequency response
- 0.5% Harmonic distortion full spectrum
- 70 Volt / 25 Volt & 4 Ohms speaker
- Master volume control
- Priority microphone input
- Automatic mute
- 115 Volt AC or 24 Volt DC power input
- Dimensions 483 x 305 x 190.5 mm

- Power 120 watts RMS
- Am/fm digital tuner with pre-sets
- four microphone inputs with priority
- Two auxiliary inputs aux 1 aux 2
- Telephone 600 ohm page input
- Four switching speaker zones
- Bass and treble controls
- Distortion > 1%
- Phantom or line switchable on XLR inputs
- Speaker line 70/25v and 4 ohm
- Rack mounting included
- Master volume control
- Frequency response 50-15khz
- Dimensions 480 x 320 x 133 mm
- Weight 25 lbs

#### PAR 120 RECEIVER AM/FM 120 WATTS - 45 WATTS RMS

**PA 60** 

- 4 Microphones / Line / Phantom, 1 Aux input
- 600 Ohms telephone input interface
- Tone control: Bass +/10dB, Treble +/10dB
- 30-20,000 Hz frequency response
- 0.5% Harmonic distortion full spectrum
- 70 / 25 Volt & 16 / 8 / 4 Ohms speaker outputs
- S / N: Mics 60+dB, Aux 70+dB, Main 80+dB
- Auto mute on microphone / telephone
- RCA 1 Volt at 600 Ohms
- 4 speaker zones controls
- 6 VC controls, plus master, monitor, and telephone.
- 120 Volt AC or 24 Volt DC power input

**PAS 1360** 

- Tortech power amplifier PAS1360 is designed to produce the best power, reliability and features providing 360 Watts @ 70 Volt / Booster amp with RCA/XLR/SCREW inputs 2-RCA line inputs/ 2 balanced XLR inputs 600 ohm balanced telephone input
- Frequency response 35–18 KHz /19 inch rack
- 40 Watts RMS / Zone
- Five (5) programmed inputs to 4 zones
- 600 Ohms telephone input interface
- Bass and treble tone controls
- 50-15,000 Hz frequency response
- 0.5% Harmonic distortion full spectrum
- 70 Volt / 100 Volt / 4 Ohms speaker
- Master volume control
- Priority microphone input
- Automatic mute
- 4 speaker zones
- 115 Volt AC or 24 Volt DC power input
- 483 mm (19") rack mount built in
- Dimensions 483 x 305 x 190.5 mm

MZ- 450 4 ZONE AMP 160 WATTS RMS

# PAR30 / PAR60 – PA Amplifier With AM/FM Tuner Plus USB Port

- PAR30 30 Watts RMS
- PAR60 60 Watts RMS
- Frequency Response 100-20,000Hz
- THD >.5%
- AM/FM Tuner
- USB Port
- Mater Volume Control
- Bass Mid Treble Equalizer
- Weight 4.3 / 5.8 Kgm

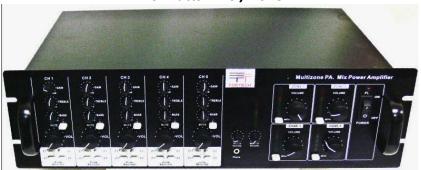

- Telephone 600 Ohm or Microphone Input
- Microphone #2 Input
- Auto Mute on Tel/Mic
- Aux Input
- Music On Hold
- 70 Volt Speaker Line
- 8 / 4 Ohm Speaker Line
- Rack Mount available
- Dimensions 90 (4) x 270 (10.5) x 260 (9.5)

#### **MULTI-ZONE AMPLIFIER**

# MZ-4120 480 Watts RMS

The Tortech Mz-450 Is a Multi-Channel Public Address Amplifier That Has 4 Separate Amplifiers of 40 Watt Each. There are five inputs that can be directed to any of the four separate zones plus is a 600 ohm telephone line to page each zone selected. Each Of The 4 Amps Has A Line Out To Larger Amplifiers.

- Five ( 6 ) programmed inputs to 4 zones
- Three XLR microphone | Two RCA auxiliary | Tel page
- 600 Ohms telephone input interface
- Bass and treble tone controls
- 50-15,000 Hz frequency response
- 0.5% Harmonic distortion full spectrum
- 70 Volt / 100 Volt / 4 Ohms speaker

- Master volume control
- Priority microphone input
- Automatic mute
- 4 speaker zones
- 115 Volt AC or 24 Volt DC power input
- 483 mm (19") rack mount built in
- Dimensions 483 x 305 x 190.5 mm

The TORTECH MX6S 6 channel XLK Phase Snitting microphone mixer is designed to eliminate feedback. The mixer has a balanced XLR and a line level RCA output 6 CH phantom microphone input.

- 6 CH independent microphone power control/volume switch
- Independent microphone and line input switch
- EFX port support connecting to conference system
- Frequency shift: 5Hz±1HzOutput impedance: ≤600Ω
- Microphone Gain: 5~14dB

#### **MIXERS**

#### **MX-8 MIXER**

- 9 channel microphone mixer
- 4 microphone with screw terminals
- Telephone 600 ohm paging input on mic #1
- Auto mute on mic #1 or tel page
- 3 aux input 47 K ohms with RCA
- EMC inputs for emergency signals
- 100-10,000 Hz frequency response
- Rack mounted 483 mm brackets (19")
- Weight 1.5 kg
- 24 Volt DC power input
- Dimensions 483 x 44.5 x130 mm

# MX 22/ MX222 Remote Mixer

The MX22 is a 24 Volt remote microphone input and or auxiliary input. Multiple mx22 can be stacked into one auxiliary input. The mx22 has a female XLR microphone input and a RCA auxiliary input. The remote mixer fits on a single gang stainless plate and only requires two twisted pairs of wire to operate at long distances. A MXSB security box is also available. The tt246 24 volt dc power supply is required.

|              |   |  |

14.5 & 16.5 lbs

#### **TUR 800**

The TORTECH **TRU 800** universal ringer is engineered to provide ringing over paging on all types of telephones and systems.

Weight

Terminal # 1 is 24Volt DC power
Terminal # 2 is Tip and Ring (AUDIO)
Terminal # 3 is Dry Contact from KSU
Terminal # 4 is 1st Line 90Volt Ringer
Terminal # 5 is 2nd Line Ringer 90
Volt

#### TNR 800 NIGHT RINGER / TONE GENERATOR

The TORTECH T&R 800 is designed to produce a variable tone through a PA amplifier.

- Simply connect the modular jack to the telephone jack
- Plug the AC adapter into the power duplex
- Insert the RCA in to the aux input of the amplifier
- Connect the KSU dry contact to the terminal block
- Adjust the volume and the pitch

The generator will produce the night / tone ringing over PA system

#### **ZC 9U ZONE CONTROLLER**

- DTMF Controlled
- 9 Individual Zones
- Access Paging Port
- DIAL 1/2/3/4/5/6/7/8/9
- Plus All Call......Dial 10 For All 9 Zones
- 50 WATTS / ZONE
- 9 Volt Operation
- 600 OHM INPUT TIP (RED) & RING (GREEN)
- Dry Contact Activation
- 70 OR 25 Volt Speaker Line

#### **HORNS**

#### SH-15T / SH-30T

The Tortech SH-15T and SH-30T are all metal constructed high Efficiency horns. The SH-15T 15 Watt horn has a 8" bell and the SH-30T horn has a 10" bell. Both horns are constructed of Spun and die cast aluminum and the hardware is made of Stainless steel to stop corrosion. The voice coils are field replaceable. The transformer is soldered to the rotary switch for an easy selection of the desired wattage. There is a plastic window to cover and to protect the speaker terminals. The horn is tan in colour to blend into any environment.

#### **Product Specifications:**

#### SH-30TC

The TORTECH SH30TC high efficiency horn is engineered to be one of the finest and most versatile horns ever produced. The SH-30TC weather proof horn is constructed from 1-45-90°. The voice coil is fully field replaceable. All metal parts are zinc coated to prevent corrosion. The SH-30TC horn is designed for excellent voice reproduction.

#### **Product Specifications:**

Dispersion 120° x 60° Frequency Response 250 - 14,000 Hz Power 30 Watts RMS

Sensitivity 125dB Size 11" x 7"

Taps 30 / 15 / 8 / 4 W 70 Volt

#### **HORNS**

#### **MUSIC HORN CS-30**

The Tortech CS30 30 watt RMS speaker is made from shock-resistant ABS weather proof plastic.

- One 120 mm high efficient speaker with a wide frequency range
- A constant 70/100 Volt transformer is built in the case with taps of 30, 15, 7.5 & 3.8 Watts
- Sound pressure 101 dB /W/m
- Weight is 8.2 lbs
- Size 10 x 8 x 8 inches
- Easy to mount with excellent
- Voice and music reproduction

#### TH-16T

#### **Product Specifications:**

Dispersion 130°
Frequency Response 300 - 12,000 Hz
Power 16 Watts RMS
Sensitivity 119dB

Size 7.5" x 10"

Taps 16 / 8 / 4 / 2 W 70 Volt

The TORTECH TH-16T horn is engineered to produce exceptional quality sound at a reasonable cost. The weather proof horn is constructed of high impact A.B.S. plastic and the hardware is zinc plated to corrosion. The base is adjustable both horizontally and vertically. The multi-tap 16 watt transformer is adjustable form two to 16 watts.

#### TROUGH THE GLASS INTERCOMS

#### IMS-2 - Designed where safety is required

The new **IMS-2** can either be used with the existing microphone and speaker on the master station or the headset that can be activated on the master station and disconnecting the microphone and speaker. It is easy to install and comes with a headset. Truly able to handle all hands free two way communications needs.

- No glass cutting required
- Is compact and slim with a stainless steel case
- Speaker built in the base of the unit
- Adjustable gooseneck 380 mm
- Easy push to talk switches
- Built in voice feedback controls on both master and sub-station

- Built in AUX output for P.A.
   System
- Volume control for teller and customer unit
- Customer Unit WEDGE or FLAT
- Powered by DC12V
- 86 x 80 x 96 mm

# IMS-1W Security/Bank Intercom

Features: I M Safe - 1

The new IMS-1W is now available with either a round on the glass speakers / microphone combination that does not require glass cutting or a wedge shaped speaker / microphone for the save station. Easy to install and operates on 12VDC.

- Priority conversations
- Hands free two way communications
- Built in voice feedback controls on both master and sub-station
- Easy to install

- 12 Volt DC operation
- Condenser gooseneck microphone
- No glass cutting required
- Brushed aluminum construction

- Size 14" X 12" X 12"

#### GS-6

- 360º Surround Sound
- 50 −18 KHz Response
- 4-8 Ohm Or 70 Volt Version
- 25 Watts RMS
- Fiberglass Construction
- 5 Inch Poly Speaker
- Slade Green
- Weight 10 Lbs
- Size 14" X 11"

#### GS6 - ROCK

- Exterior Rock Speaker
- Multilayer Composite Material
- Full 150 Watts Driver
- 6.5 Inch Coaxial Speaker
- 2 Inch Aluminum Tweeter
- 4.5 KHz Crossover
- Canyon Slate Or Granite Finish
- Weight 16 Lbs
- Size 19" X 14" X 11.5"

#### **EMS 330**

- 3 Inch Full Range Speaker
- Sensitivity 86db
- 15 Watts RMS
- 40-15,000 Hz
- Swivel Ball Joint Bracket

#### **OMNI-DOME SURROUND SOUND SPEAKERS**

**ESP**- engineered sound products –is a clean line, full frequency conical speakers. The Omni -dome woofer and four matching high powered compression horns gives these speakers full range sound projection. The ESP 800, 1000, & 1200 will provide 360 °x 180 ° of surround sound coverage in any large recreational facility, Convention center, gymnasium, sports area, community halls, banquet, Halls, schools, churches, shopping centers, super box stores, airports, bus or train stations, theaters and pools.

**Full fidelity** - for voice or music with a full frequency response ranging from 40 Hz to 20 kHz. The central cluster speaker cabinet has a tuned port and Optimum "x" cross over net work for maximum performance.

# ESP 800 5000 SQ FT

#### **Product Specifications:**

| Coverage           | 360° horizontal 180° vertical            |  |  |
|--------------------|--|--|--|
| Frequency Response | 40 - 20,000 Hz                           |  |  |
| Height             | 9"                                       |  |  |
| Impedance          | Normally 8 Ohms with optional 25V or 70V |  |  |
| Power              | 80 Watts RMS                             |  |  |
| Sensitivity        | 96dB per Watt per Meter                  |  |  |
| Weight             | 15 lbs                                   |  |  |

The **V**oice **P**rojector 360 is a new **O**-**D** surround sound concept. The ESP-360 is engineered to produce exceptional voice quality sound in a 360 degree pattern reaching all corners of the paging area. The **VP**-360 contains eight three inch full range speakers in a linearly configuration to produce an excellent surround sound. The six and half inch woofer is used to enhance the quality of the both the voice and music reproduction on the VP-360.

#### **TORTECH CAGE**

#### The Protector: Cage-15 Stainless Steel Cage

The **Tortech Cage – 15 SS** is a stainless steel protective cage made to protect equipment from being removed or damaged from the intended location. The cage size is  $15 \times 15 \times 15$  inches at the top and tapers to  $14 \times 14 \times 14$  inches at the bottom. This allows the cage to be stackable. The cage-15 is made from amazing 300 pound tensile strength stainless steel wire .the joints have been welded by auto robotics plus the entire cage 15 SS has been chrome plated to prevent rusting.
